

Utility Allowance Schedule

See Public Reporting and Instructions on back.

U.S Department of Housing and**Urban Development**

Office of Public and Indian Housing

OMB Approval No. 2577-0169

exp. 04/30/2026

The following allowances are used to determine the total cost of tenant-furnished utilities and appliances.

Locality/PHA		Unit Type					Date (mm/dd/yyyy)	
Utility or Service	Fuel Type	0 BR	1 BR	2 BR	3 BR	4 BR	5 BR	
Heating	Natural Gas							
	Bottled Gas							
	Electric							
	Electric – Heat Pump							
	Fuel Oil							
	Other							
Cooking	Natural Gas							
	Bottled Gas							
	Electric							
	Other							
Other Electric								
Air Conditioning								
Water Heating	Natural Gas							
	Bottled Gas							
	Electric							
	Electric – Heat Pump							
	Fuel Oil							
Water								
Sewer								
Trash Collection								
Other – specify								
Range/Microwave								
Refrigerator								
Actual Family Allowances – May be used by the family to compute allowance while searching for a unit.					Utility/Service/Appliance		Allowance	
					Heating			
Head of Household Name					Cooking			
					Other Electric			
					Air Conditioning			
					Water Heating			
Unit Address					Water			
					Sewer			
					Trash Collection			
					Other			
Number of Bedrooms					Range/Microwave			
					Refrigerator			
					Total			

PHAs must maintain a completed HUD Form-52667 Utility Allowance Schedule for each unit type that is typical in the PHA's jurisdiction. The utility allowance schedule is based on the typical cost of utilities and services paid by energy-conservation households that occupy housing of similar size and type in the same locality. In developing the schedule, the PHA must use normal patterns of consumption for the community as a whole and current utility rates.

This form includes the utilities that the PHA must consider: heating (space), cooking, other electric (e.g. lights, appliances, general usage), air conditioning (if the majority of housing units in the market provide centrally air-conditioned units or there is appropriate wiring for tenant-installed air conditioners), water heating, water, sewer, trash, the cost to provide a range, and the cost to provide a refrigerator. This form includes several fuel types, however, the PHA is not required to have a utility allowance for every fuel type listed on the form. The PHA is only required to have an allowance for the fuel types that are typical in the PHA's jurisdiction.

Electric resistance vs. electric heat pump: The most recent update to the HUD-52667 includes "Electric Heat Pump" as a fuel type under "Heating" and "Water Heating". PHAs may choose to provide an allowance on the schedule for electric (resistance), electric heat pump, or both. Heat pumps are more efficient and are associated with lower consumption. By adding this to the form, HUD is not requiring PHAs to consider both. This is up to the PHA, however, the [HUD Utility Schedule Model](#) tool available on HUDUser.gov provides an allowance for both electric resistance and electric heat pump.

Determining Allowances: In general, PHAs use local sources of information on the cost of utilities and services, such as:

1. Electric utility suppliers
2. Natural gas utility suppliers
3. Water and sewer suppliers
4. Fuel oil and bottled gas suppliers
5. Public service commissions
6. Real estate and property management firms
7. State and local agencies
8. Appliance sales and leasing firms

PHAs may use the HUD Utility Schedule Model (HUSM) available on HUDUser.org to determine their Utility Allowance Schedules. The tool uses geographic-specific utility consumption rates combined with user entered data on utility rates to determine the overall monthly allowance.

OMB Burden Statement: The public reporting burden for this information collection is estimated to be up to 0.25 hours, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information collected is required to determine the amount of utility allowance necessary to calculate the family's tenant portion. Assurances of confidentiality are not provided under this collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions to reduce this burden, to the Office of Public and Indian Housing, US. Department of Housing and Urban Development, Washington, DC 20410. HUD may not conduct and sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid control number.

Privacy Notice: The Department of Housing and Urban Development (HUD) is authorized to collect the information required on this form by Section 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f). The information collected specifies which utilities and appliances are to be supplied by the owner, and what utilities and appliances are to be supplied to the tenant. The Personally Identifiable Information (PII) data collected on this form are not stored or retrieved within a system of record.

Good morning Ladies,

Where has this year gone?

I am hoping you all have at least enjoyed it.

I just need to bother you all for a brief moment.

Could I get the new Utility Allowance?

Thank you,

Krystal Sanchez
